Arlington Case Study from The Vermont Homes for All Toolkit - VT ACCD and Utile Design

We want to hear from Arlingtonians on what you hope the town will do, look like, and support in the next 8 years.

The Town Plan is the town's long-range strategic planning document which provides guidance for all parts of the government. The Town of Arlington has received a grant from the Vermont Agency of Commerce and Community Development to update the Town Plan. Staff of the Bennington County Regional Commission are leading the work.
